Highways

By Master site admin

Published: 01/28/2009 - 10:37

San Angelo is served by three U.S. Highways: 67,87, 277 and State Highway 208. Located between Interstate Highways 10 and 20, San Angelo is 1 hour and 1 ½ respectively from each. Current highway improvement projects are underway to connect the Interstate Highways with 4-lane access. U.S Highway 277 is San Angelo's closest connection to Mexico – a distance of 155 miles to the border crossing at Del Rio and Ciudad Acuña, Coahuila. The highway traffic in west central Texas is light, and the four lane divided highways and two lane highways with full shoulders provide easy and safe travel.

Ports-to-Plains

By Master site admin

Published: 01/28/2009 - 10:38

The Ports-to-Plains Trade Corridor is a planned, multimodal transportation corridor including a multi-lane divided highway that will facilitate the efficient transportation of goods and services from Mexico, through West Texas, New Mexico, Colorado, and Oklahoma, and ultimately on into Canada and the Pacific Northwest.

Together, the communities along the Ports-to-Plains Trade Corridor are becoming the Gateway to trade throughout the nation and with Mexico and Canada. The Ports-to-Plains Trade Corridor will provide a vast number of benefits for communities along the corridor. The Trade Corridor will allow for the development of less congested ports of entry along the Texas/Mexico border. In addition, it will provide alternatives to other congested corridors that run through major metropolitan areas. In doing so, the trade between Mexico, Canada, and the United States will continue to dramatically increase and all three nations will continue to see a rise in their regional mobility and economic status. <http://www.portstoplains.com>

Railroad

By Master site admin

Published: 01/28/2009 - 10:43

San Angelo is the main rail yard for Texas Pacific Transportation, Ltd. This railroad connects the Mexico rail system through the border crossing at Ojinaga, Chihuahua and Presidio, Texas and the main U.S. rail corridors in Fort Worth. The business office is located in Brownwood, TX.

Travel to Work

By Master site admin

Published: 04/03/2009 - 09:13

Seventy-seven percent of San Angelo city workers drove to work alone from 2005-2007, 12 percent carpooled, 1 percent took public transportation, and 7 percent used other means. The remaining 3 percent worked at home.

Among those who commuted to work, it took them on average 15.3 minutes to get to work.
