TSTC is located in Sweetwater, 75 miles from San Angelo. They provide training for San Angelo businesses that cannot obtain the required courses in our institutions. Courses offered in TSTC include: Automation/Robotics Technology, Telecommunications Technology, Advanced Polymer Manufacturing, Industrial Management Technology, Manufacturing Engineering Technology, Computer/Network Electronics Technology, and Clean Room Maintenance. For more information, contact Texas State Technical College at (325) 235-7300 or www.tstc.edu.

Business Incubator

By Master site admin

Published: 01/28/2009 - 12:29

The Concho Valley Center for Entrepreneurial Development (CVCED) is San Angelo's business incubator and accelerator program operated by the staff of the ASU Small Business Development Center. The CVCED serves as an incubator to nurture young firms, helping them to survive and grow during the start-up period when they are most vulnerable. Incubators provide:

-
- hands-on management assistance
 - access to financing
 - orchestrated exposure to critical business and technical support services
 - shared office services
 - access to equipment
 - flexible leases and expandable space, all under one roof

The CVCED is located at 2009 W. Bearegard, San Angelo TX 76901. Contact them at **(325) 657-9214** or www.cvced.org.

Continuing Education

By Master site admin

Published: 01/28/2009 - 12:47

Both San Angelo public high schools have vocational training programs as an elective: Central High School provides Auto Technology, Auto Body, Building Trades, Electronics, Drafting, and Welding/Metal trades. Lake View High School provides Graphic Arts, Auto Technology, Introduction to Construction, Introduction to Transportation Careers, and Welding.

Angelo State University, Howard College, and American Commercial College all provide contract training for employers. The two public institutions can administer and participate in workforce development programs financed by two popular state training programs - The Skills Development Fund and the Smart Jobs Program.

Both Angelo State University (ASU) and Howard College provide active continuing education programs, typically held at night for people that want to learn basic skills or take refresher courses. Over the past year, ASU has provided vocational training in a wide range of computer introductory and intermediate courses, software instructional programs, introduction to electricity, plumbing, computer repair, web page construction, basic and advanced air conditioning, and basic electricity.

Howard College's continuing education programs have included: basic computer aided drafting, Windows NT workstations and servers, PC maintenance and support, keyboarding and other computer related courses, and several courses in medical terminology, transcription and coding and reimbursement methodologies.

Training

West Texas Training Center (WTTC)

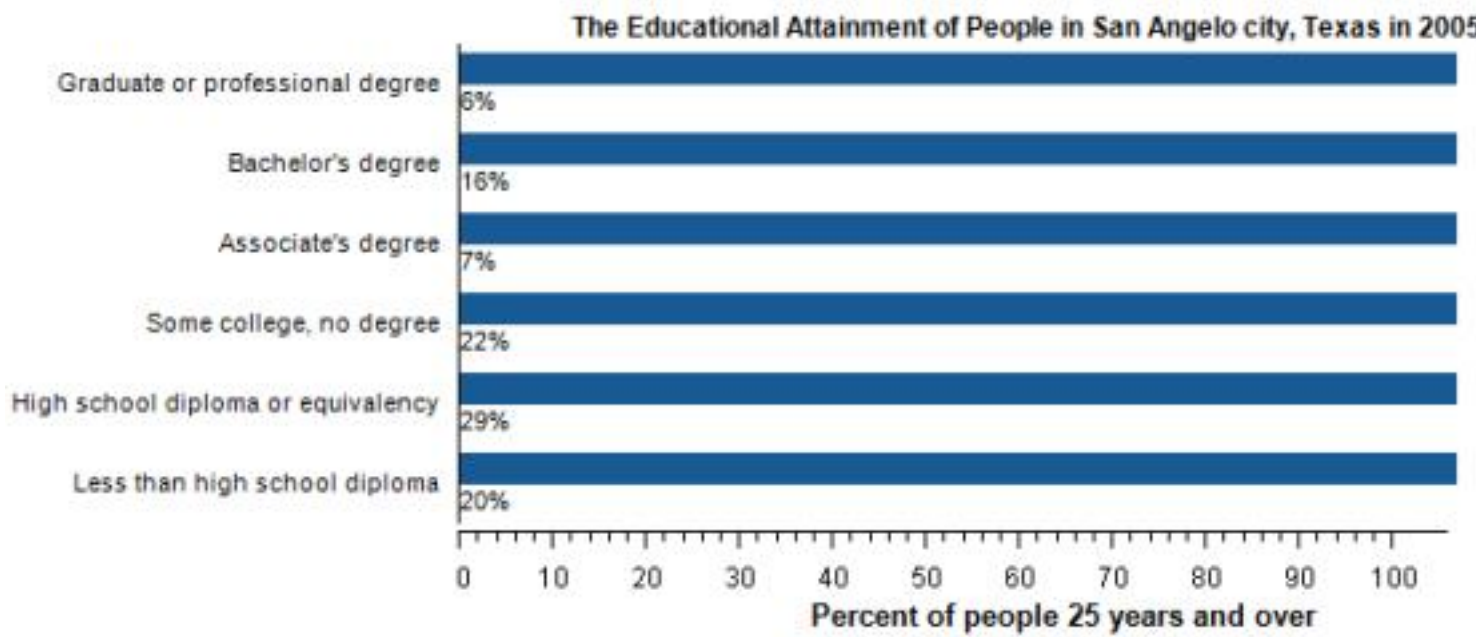

The West Texas Training Center (WTTC) is a facility that serves the workforce training needs of the Concho Valley and West Texas. The center and its consortium partners provide this training via high school courses, college credit courses and programs, continuing education units and professional development courses, customized training classes, distance education (online and interactive television), and by working with regional industry to provide facility space for company-specific training classes. Instruction is delivered via face-to-face and distance education, including online and interactive television. The WTTC is located at 3501 N. US Hwy 67 (the old Levi Strauss building). For more information on the West Texas Training Center, contact the director's office at 325-942-2800, ext. 3223, or visit the web site at www.wttcsa.org.
